Introduction

Welcome to your Forecast Report

This report shows the astrological trends influencing your life over a period ranging from days to months or years, depending on the time frame used.

The duration of each trend is indicated by a starting date, an ending date and strongest influence date. Further, an influence may begin before the time frame of the report or end beyond it.

The accuracy of the timing of the forecasts is dependent on the accuracy of the birth time. Be prepared to slide the sequence of trends either forwards or backwards in time if necessary. In some instances, there may be interpretations that repeat themselves. This is due to the cyclical and forward and backward motion of the planets activating points on your chart more than once in the period under review.

As you will find, the forecast interpretations can be positive and/or challenging. Their effects can be experienced either directly personally or through events in the lives of others in the environment. Some trends will be more apparent than others, while others may be subtler. What is most important is how you respond to them.

Report

14 January 2018 to 12 April 2018, strongest around 15 February 2018, Transiting Pluto is Sextile your Natal Pluto

One phase of your life is coming to an end now and a new one is beginning. You have the opportunity to introduce reforms and to commence new ventures and enterprises that will be part of your life for many years. This can be a creative and meaningful period for you. Possibly, you will work together with others on projects that may influence and benefit many people.

15 January 2018 to 31 January 2018, strongest around 23 January 2018, Transiting Jupiter is Conjunct your Natal Pluto

At this time, you have a powerful urge to make your mark - perhaps, by whatever means necessary. This is a potent configuration, which requires careful handling because the potential for success is great, but so too is the risk of disaster if you over-estimate yourself and your abilities. By way of an illustration to the power of this planetary pairing for gain and loss some authors have referred to it as the "make a million, lose a million" aspect. Therefore proceed with caution if contemplating taking risks that are more than you can withstand. Compulsive behaviour and power plays are common with this transit and you have to be very careful who you take on as an opponent. Those in positions of power, such as bosses, governmental authorities or even criminals could make your life difficult if you get out of your depth with them. Also, there can be the tendency to become zealous or obsessed with an idea, which can lead to arguments with others or cause you to lose sight of whom or what is important in your life. Positively, you may demonstrate a capacity for leadership and organisation - an ability to step in and take charge of situations.

30 January 2018 to 1 March 2018, strongest around 10 February 2018, Transiting Jupiter is Sextile your Natal Sun

This should be a comparatively relaxed and harmonious period for you. Whatever you want to achieve at this time you will. However, your successes now are equivalent to the efforts you put in. A problem is that you may be inclined to just kick back and enjoy the feeling of contentment associated with this transit. Travel, business or financial matters can all be beneficial now, if other factors support these. Also, you are presently well-aspected for making contacts with people who can help you socially or professionally.

4 February 2018 to 14 March 2018, strongest around 23 February 2018, Transiting Moon's North Node is Trine your Natal Moon

At this time, important and significant people could come into your life. Females, in particular, can be influential during this period.

9 February 2018 to 4 April 2018, strongest around 7 March 2018, Transiting Neptune is Square your Natal Moon

This may be a highly emotional period for you. Your sensitivity is more acute now than at just about any other time in your life. You will pick-up on virtually every little nuance and mood in others and the environment. You may be quite surprised at how emotional you are now. You could even find yourself spontaneously weeping over the smallest thing. There is little point trying to rationalise your feelings at the moment, because what could be churning you up comes from deep within. Instead, acknowledge your present sensitivity and try to go with the flow. If you are at all creative, this can be a wonderful transit because it charges your imagination and powers of inspiration. Your intuition is powerful now and there is the possibility you will experience premonitions. Take care, however, with regard to matters of the heart; new relationships may not be as they seem and there is a very real danger of being deceived and disappointed in love. There can be misunderstandings with women now and upsets on the home front caused through over-sensitivity. Moderation in intoxicants or stimulants is advisable.

This can be a spiritually enriching period. You will have an increased interest in spiritual, metaphysical and creative subjects. Your powers of imagination and inspiration are enhanced at this time, and artistic expressions such as painting, photography, music, dance, drama and poetry can all flourish now. Travel is possible.

10 March 2018 to 16 April 2018, strongest around 30 March 2018, Transiting Uranus is Square your Natal Saturn

This can be a trying and tense period for you. Your powers of adaptability and endurance will be tested now, as you experience the sudden breaking down of old and familiar patterns and structures in your life. We all need structure in our lives in order to function properly; however there are some structures we create that actually prevent us from growing and moving forward. Those areas of your life that you find restrictive and inhibiting will be targeted first. Nothing is permanent; even those aspects of your life you think are rock solid. It is now the time to unlock the padlock in your mind and break out of any self-limiting patterns. During this period, you could do something like walk out of an oppressive relationship, throw in an unfulfilling job, or take risks you wouldn't ordinarily consider taking. This is an unpredictable time, but if you stay true to yourself and let go of those areas in your life that are holding you back, the long-term gains far outweigh the short-term disruptions. Under certain conditions, sudden separations or confinements can occur during this transit.

16 March 2018 to 15 April 2018, strongest around 4 April 2018, Transiting Jupiter is Sextile your Natal Sun

This should be a comparatively relaxed and harmonious period for you. Whatever you want to achieve at this time you will. However, your successes now are equivalent to the efforts you put in. 25 March 2018 to 29 April 2018, strongest around 12 April 2018, Transiting Uranus is Opposition your Natal Midheaven

This transit can be quite unsettling on two fronts: your home-life and professional life. Both of these may have a direct influence on one another. Of the two, however, your

home-life is the more important for the moment. Disruptions can occur in your domestic environment at this time. You may want to make alterations to the house, change residence or even move across country or abroad. Family members could cause you unexpected problems during this transit. With respect to your career, you can expect changes to occur here too, most likely involving others. Possibly, there could be personality clashes or disruption through restructuring at work, which could create passing feelings of insecurity in you.

29 March 2018 to 16 May 2018, Transiting Pluto is Conjunct your Natal Sun

This is one of the most powerful transits you are likely to undergo in your life, in which some aspects of your life will change because they are no longer viable and sustainable. You are, in effect, undergoing a process of inner change and transformation, complete with the purging of character traits you've outgrown. The Sun in your horoscope represents your self-determination, desire for recognition and your ability to assert authority or to dominate. Pluto, the planet of transition, revitalisation and regeneration, forces you to confront yourself and the status of your individuality. If, in the past, you have surrendered your power to another, especially a significant male, you will no longer be able to maintain this as a way of life. Instead, you will feel compelled to claim and assert your own power and authority. Consequently, you may experience power struggles, but these may be a necessary part of the process of re-defining yourself and establishing your autonomy. In certain circumstances, this transit can manifest as a crisis or turning point in the life of an important man in your life. For instance, a father or male partner could experience something like illness or problems at work, which impact upon you indirectly, yet still force you to make adjustments in your own life.

1 April 2018 to 9 May 2018, strongest around 20 April 2018, Transiting Moon's North Node is Conjunct your Natal Jupiter

During this period, you have the ability establish harmonious relationships. Alternatively, there can be disharmonious relations with others due to a lack of adaptability or conflicts over matters of outlook.

3 April 2018 to 8 May 2018, strongest around 20 April 2018, Transiting Uranus is Trine your Natal Mercury

This can be an intellectually stimulating and revolutionary period in your life. You are thirsty for new knowledge and open to the ideas of others, especially the ideas of

progressive and forward-thinking people. Also, you tend to be able to grasp new concepts more readily and quickly now. This is an excellent time for learning new subjects. Travel is well-aspected under this influence.

8 April 2018 to 13 May 2018, strongest around 25 April 2018, Transiting Uranus is Square your Natal Moon's North Node

The essence of this transit is changing relationships. You can expect to make and break contacts suddenly during this period. Old associations that have run their course are likely to be discarded now and replaced with new contacts that are more relevant to your current lifestyle. You may be attracted to independent, freethinking and original personalities at this time. This transit can also cause or reveal discord in established unions or among family members. You may share in sudden and upsetting experiences with others now.

14 April 2018 to 1 May 2018, strongest around 23 April 2018, Transiting Jupiter is Conjunct your Natal Pluto

equivalent to the efforts you put in. A problem is that you may be inclined to just kick back and enjoy the feeling of contentment associated with this transit. 22 October 2018 to 31 October 2018, strongest around 27 October 2018, Transiting Jupiter is Sextile your Natal Saturn

This transit brings out the best of both Jupiter and Saturn. You will want to expand and grow at this time, but you will be careful in regard to how you go about it. You have good self-discipline and common sense now, coupled with strong powers of perseverance. Whatever you apply yourself to now - be it your work, buying and selling, or business activity - you will demonstrate sound judgement and a responsible and practical attitude. You seem to know how far to go and when to stop. For instance, if you are in business, you may want to expand, but you will only borrow as much money as you can comfortably pay back. Or, if you are considering investing in a savings scheme or property, you will proceed carefully.

29 October 2018 to 7 November 2018, strongest around 3 November 2018, Transiting Jupiter is Opposition your Natal Mars

This is an essentially positive transit; however there are pitfalls to be aware of that can lessen its positive effect. Firstly, there can be a proneness to immoderate activity. Secondly, you may feel motivated to take risks that you wouldn't ordinarily take. Thirdly, you can project an over-inflated sense of your own self-importance to others. In all instances the outcomes could be an unravelling of your good efforts. Yet, if you can keep a sense of perspective, plan your moves well and remain circumspect during this period, the potential for success in any undertaking is almost certain. This is an excellent period for business matters, negotiations and for starting new projects, providing there aren't other more powerful transits from the stronger planets to contend with also. Your sense of timing is very good now and, as luck will seem to have it, you will probably conveniently find yourself in the right place at the right time. Relations with others can improve now and disputes can be sorted out. If you are sports oriented, this transit can improve your game and take you to another level of fitness.

to coincide with its duration, because either should be successful. Travel is also well-pected under this influence. Relationships tend to go well now.

17 December 2018 to Beyond 31 Dec 2018, strongest around 25 December 2018, Transiting Saturn is Conjunct your Natal Ascendant

This is one of Saturn's most important transits, because it coincides with a new cycle of growth and self-development in your life. You will not be concerned with light and trivial things at the moment. Instead, you will be thinking about making new starts and long-term plans. However, don't beat yourself up if you're not entirely sure about where you're supposed to be going; things will become clear enough in time. One thing is certain, the past can be left behind, so tidy up any loose ends and start thinking about the future. Regarding your relationships with other people, take care that you don't inadvertently segregate or cut yourself off from others. Some contacts will be terminated at this time, but don't see this as a bad thing; in all likelihood they have come to the end of their purpose in your life. The environment may not be everything you'd like it to be; it may seem harsh or unsympathetic. Often people move during this transit. Physically, you may notice that you start to lose weight.

18 December 2018 to Beyond 31 Dec 2018, strongest around 26 December 2018, Transiting Saturn is Conjunct your Natal Uranus

This can be a trying period, because you may feel your freedom is being restricted by external forces. It may seem that others or circumstances are preventing you from doing whatever you want to do. Just about every assertion of your independence meets resistance. Under certain circumstances, you may have to battle against restrictive forces such as authority figures or bureaucratic red tape in order to move forward. However, this does not include breaking the laws of the land or moral codes, because you'll only get caught. Still, this transit can give you the fortitude and determination to succeed against the odds, if your cause is truly just. You need to watch your stress levels, as too much stress now could negatively impact on your health. Also, guard against accident or injury proneness.

23 December 2018 to Beyond 31 Dec 2018, Transiting Neptune is Sextile your Natal Neptune

This can be a spiritually enriching period. You will have an increased interest in spiritual, metaphysical and creative subjects. Your powers of imagination and inspiration are enhanced at this time, and artistic expressions such as painting,
