

A Scientific way of Astrology

Question

I am working as second fiddle in my organization. Wish to be on the top most position in the organization. Can you suggest me name/spelling change?

My name is MADHUSUDAN ARYA
Date of birth 10th August 1971

Answer

Dear Madhusudan ,

Your date of birth has tremendous potential to be successful and to reach at the topmost position in any organization. Your date of birth totalling to 1 is ruled by Sun, which indicates that you will be a successful leader. However, spelling of your name does not allow you to reach to the top.

Analysis of your current spelling

MADHUSUDAN ARYA totals to 44 as per Chaldean numerology. This totals to 8. Number 8 is ruled by Saturn. It indicates delays and lot of struggle. You must be a hardworking person but reaching to the top in shorter time frame would be very difficult for you due to current spelling of your name.

We suggest you to change your spelling to MADHUSUDAN AARYAA, which totals to 1. This will help reach you to the top, in a shorter time frame than destined. You will be able to accomplish your desire to reach to the highest position in the organization and emerge out as a very good leader.

Be blessed,

Astro master
