Introduction

Welcome to your Forecast Report

This report shows the astrological trends influencing your life over a period ranging from days to months or years, depending on the time frame used.

The duration of each trend is indicated by a starting date, an ending date and strongest influence date. Further, an influence may begin before the time frame of the report or end beyond it.

The accuracy of the timing of the forecasts is dependent on the accuracy of the birth time. Be prepared to slide the sequence of trends either forwards or backwards in time if necessary. In some instances, there may be interpretations that repeat themselves. This is due to the cyclical and forward and backward motion of the planets activating points on your chart more than once in the period under review.

As you will find, the forecast interpretations can be positive and/or challenging. Their effects can be experienced either directly personally or through events in the lives of others in the environment. Some trends will be more apparent than others, while others may be subtler. What is most important is how you respond to them.

You are now at a highly significant juncture in your life, with this period being the initial leg of a personal journey that will see you switch from one phase of life into the next. Transiting Pluto in aspect to its natal position has the effect of bringing major life chapters to close and new ones into being. Change, during Pluto's transit, is unavoidable. The old order is no longer relevant or sustainable. This transit often compels a confrontation with powerful inner or external forces. Internally, you may be aware of some aspect of your life that you need to look at and change. There are no half measures with Pluto; any changes that need to be made now will have an all or nothing quality about them. In practical terms, this transit can force people to look long and hard at their relationships, careers or general lifestyles. If you feel anything is wrong or lacking in your life, it is best to instigate reforms now; else they tend to occur outside of your own control. Acknowledge any pressure you may feel yourself to be under, address its cause and take whatever remedial action is required. Power struggles are not uncommon during this transit.

7 October 2018 to 29 November 2018, strongest around 1 November 2018, Transiting Uranus is Conjunct your Natal Mercury

This is one of the most intellectually stimulating periods of your life. You are hungry for new knowledge and mental stimulus. Someone new may come into your life now and turn your conceptions about yourself and life completely upside down. One thing is for sure, after this transit has passed, your outlooks are going to be quite different to what they were. Apart from the possible influence of another on your thinking, your mind is going to be independently progressive and original, possibly even a bit wayward. The way you are thinking now is likely to challenge the views and opinions of conservative thinkers. In your profession, you will seek to introduce reforms and innovations, and if your current job can no longer provide the stimulus you need, you will probably start looking for different work. The pace of your life will accelerate during this period. So, in the midst of all this excitement, try to give yourself occasional periods of quietness to still your mind, else you could risk burnout. There is a danger of nervous exhaustion or absent-mindedness caused through having too many things on the go at the same time.

8 October 2018 to 18 October 2018, strongest around 13 October 2018, Transiting Jupiter is Conjunct your Natal Uranus

Expect the unexpected with this transit, but don't presuppose that what you experience will necessarily be to your liking, because any transit involving Uranus is going to be unpredictable. Positively, this is a period in which sudden opportunities could present themselves and offer you the chance to break out of old routines and experience new things. For instance, you may have to suddenly contend with new conditions in your work, or you meet someone who influences you profoundly. Some people even have sudden financial windfalls or the chance to travel. Definitely, you will want to make changes for the better under this influence and you should receive plenty of signals, by way of intuitive flashes, as to how to do this. Occasionally, this transit is preceded by an intense feeling of tension which suddenly releases when it becomes exact. One word of caution, you could annoy others and consequently miss good opportunities now, if you display a "bloody-minded" attitude or contradict people for the hell of it. Legal matters are best avoided now, if possible, as their outcome is difficult to predict. In fact, if conflicts of any description do arise, it is in your best interests to try and nip them in the bud, lest they become exaggerated out of all proportion.

3 November 2018 to 5 November 2018, strongest around 4 November 2018, Transiting Mercury is Conjunct your Natal Moon

This is a good time for you to communicate your feelings to others. Equally, the words or ideas of others can influence you more than usual. Communications with females or family members are likely now. There may be the need for you to make decisions that affect your emotional, family or domestic life. Instinct plays a large part in your decision making processes at the moment.

3 November 2018 to 5 November 2018, strongest around 4 November 2018, Transiting Sun is Opposition your Natal Sun

Smugness or arrogance could mar this period. The question is, are these traits in you or another? The ambitions of others could conflict with your own and cause tensions. You may be a bit grumpy or out of sorts during this period.

3 November 2018 to 13 November 2018, strongest around 8 November 2018, Transiting Jupiter is Square your Natal Mars

This is an essentially positive transit; however there are pitfalls to be aware of that can lessen its positive effect. Firstly, there can be a proneness to immoderate activity. Secondly, you may feel motivated to take risks that you wouldn't ordinarily take. Thirdly, you can project an over-inflated sense of your own self-importance to others. In all instances the outcomes could be an unravelling of your good efforts. Yet, if you can keep a sense of perspective, plan your moves well and remain circumspect during this period, the potential for success in any undertaking is almost certain. This is an excellent period for business matters, negotiations and for starting new projects, providing there aren't other more powerful transits from the stronger planets to contend with also. Your sense of timing is very good now and, as luck will seem to have it, you will probably conveniently find yourself in the right place at the right time. Relations with others can improve now and disputes can be sorted out. If you are sports oriented, this transit can improve your game and take you to another level of fitness.

4 November 2018 to 8 November 2018, strongest around 6 November 2018, Transiting Mars is Square your Natal Uranus

Expect pressures and potential arguments caused by inner tensions or stress in either yourself or others. There is a danger of accidents or injuries during this period.

7 November 2018 to 16 November 2018, strongest around 12 November 2018, Transiting Jupiter is Square your Natal Jupiter

Expect your understanding of the world to broaden - this may be experienced through such things as long-distance travel, higher education, or simply by being more outreaching and embracing of life and others. However, there is a need to caution against extending your scope of activity beyond what you can reasonably manage - or of losing your sense of proportion and perspective. At its best, this transit brings the rewards of hard work commensurate to the amount of energy you put in. But if you simply sit around enjoying the feelings of well-being it induces, you will have little to show for it after it passes. While this can be a financially prosperous time, you would do well to guard against wasteful or extravagant tendencies. Also, it is not uncommon for some people to get a superiority complex during this transit and end up arguing with others, especially over matters of outlook or philosophy.

8 November 2018 to 10 November 2018, strongest around 9 November 2018, Transiting Sun is Sextile your Natal Ascendant
